

Hello HSE 101 students!

I found a "free" online personality assessment tool. Please visit the following website:

www.humanmetrics.com

to complete the required assessment.

When you have accessed the web site, click on “Jung Typology test”. Then complete the questionnaire (72 yes/no questions), and once submitted, your test will be scored immediately.

Then you will need to print out the two descriptions from two different psychologists, D. Keirse and J. Butt, of your 4 letter (personality) code.

Have fun with this assignment. You won't believe how accurate these descriptions will be. And guess what? This is a great way for you to discover what career options best match your personality profile, especially if you are undecided as to your career choice. In addition, employers use similar assessment tools when screening applicants for potential positions. This is a great way to learn more about yourself and what you might like to do. Again, have lots a fun with this.

Please print your descriptions and we'll talk about this at the end of class

Take care and see you soon!

Smiles,

Dr. Flath
